As requested, please find below the following estimate for your self-insured procedure. Please note that this is not a formal quotation and this will be conducted when you book your procedure in. There may be variations based on the complexity of the case, and whether you require other procedures such as removal of polyps. In addition, other costs may be incurred if any difficulties occur which necessitate additional treatment or extended hospital stay, especially as you are self-insured. Ancillary services, if required, will also incur costs (eg pathology and radiology).

Raymond Yap's fee estimate

Item No	Description	Fee	Medicare Rebate
32222	Colonoscopy	\$650.00	\$293.10

Out of Pocket Cost: \$356.90

Australian Medical Association recommended total fee (for reference): \$985.00

The hospital fee is usually around \$700, but again, a formal quotation cannot be obtained until you book your procedure in.

We generally use anaesthetists from the Victorian Anaesthetic Group and it is usually either Dr Adam Sutton or Dr Tom Sullivan. The cost is usually around \$550 (Medicare rebate ~\$150).

Once you have booked your procedure an estimate can be obtained by either calling them on 8573 3599 or email to ifc@vag.com.au with subject "Quote Request" and include the following information below in your email:

- surgeon's name, Mr Raymond Yap
- your name, DOB and contact number

On the next page is some enclosed information in regards to out of pocket costs.

We prefer correspondence via Argus: secure@colorectal.com.au or Healthlink: viccoloc

We will send letters via Argus or fax; please tell us if you would prefer mail. Our provider number is 296978BT.
Consulting at: Suite 20, Cabrini Medical Centre
Isabella Street, Malvern, 3144

Suite 6, Brighton Consulting Rooms
243 New Street, Brighton 3186

INFORMATION REGARDING OUT OF POCKET COSTS

Please find enclosed a quotation for the cost of your medical care during your upcoming treatment in hospital. This quotation is designed to allow you full information, in advance, of any out of pocket costs relating to the care from Mr Raymond Yap. Other doctors attending to you including the assistant surgeon and anaesthetist will provide you separate information regarding their costs. These costs are intended to act as an estimate and there may be times, due to unforeseen circumstances, that these costs either are increased or decreased.

WHY IS THERE AN OUT OF POCKET COST?

Unfortunately, the cost of medical defence insurance, as well as increasing costs secondary to inflation have markedly increased over the last few years. Until very recently, the Medicare benefits schedule has frozen their remuneration, meaning that these had not kept up with increasing costs.

WHAT DOES MY QUOTATION INCLUDE?

Your quotation includes the cost of your projected care, including all visits on the ward and return visits to the rooms for a period of 4 weeks after surgery for normal follow-up. In addition, it also includes my availability, or in my occasional absence, the availability of a suitably qualified surgeon during your inpatient stay.

If you feel that this quotation will cause you undue financial difficulties, or have any questions in regards to this, please feel free to contact me, preferably well in advance of your surgery.

MR RAYMOND YAP
